Nationality: - British

PERSONAL PROFILE

An outgoing and confident individual with voluntary experience and a broad skill set. Who takes pride in being reliable, honest, and motivated.

I have an extensive set of skills, from leadership picked up from work at my local scout group to computer skills from personal hobbies. Recently, I achieved the particularly challenging duke of Edinburgh silver award. I am now undergoing my gold award, where my team will endeavour on a 5-day walking expedition testing teamwork and navigation skills in the lake district. In addition to this I must also complete a further 12 months of volunteering, doing a physical activity and learning a new skill.

Some of my other passions include running, swimming, and rock climbing. I regularly participate in running events from 5k to Half marathon events as well as group runs with my local club. I was also formerly a member of my local swimming club and competed at various county wide competitions. Additionally, I also enjoy climbing and help run indoor climbing sessions for my local scout group, I am currently working to achieve an instructor certification to enable me to run group sessions on 3 climbing walls simultaneously. I feel that my determination in sport has a positive effect on other aspects of life.

Furthermore, I have considerable knowledge in varying aspects of computer science, having developed interactive websites hosted on Linux based operating systems. Not only this but I also have vast experience and knowledge in python, picked up from coding many problem-solving projects.

VOLUNTEERING EXPERIENCE

Young Leader, local Scout Group - Sept 2017 to Present

Young Leader, local Cub Scout Group - Sept 2017 to April 2019

Gardening at Elderly Home- Feb 2017 to Sept 2017

EDUCATION

Secondary Education- 2015 - 2020

I thoroughly enjoyed secondary education and strove to always work hard. I attended various early morning clubs to develop my studies which helped make time to fit in my many extracurricular hobbies and interests. I played an active role in my year group and have achieved 100% attendance 2 years running.

The following GCSE grades I achieved -

Maths	7	Physics	8
English Literature	5	Biology	6
English Language	5	Chemistry	6
Computer Science	7	Media Studies	Level 2 Distinction
Art & Design	6		

Sixth Form - 2020 - Present

I am currently studying A level Computer Science, Maths and 3D Design as well as doing extended project.
